Android Host - version 17.0 (2018117)

Windows - version 17.0 (2018136)

**Shipping date:**28<sup>th</sup> of June 2018

## Introduction

We are pleased to introduce the new release of Netop Mobile & Embedded for Android. These modification notes contain information relating to a maintenance release of Netop Mobile & Embedded for Android (Android Host) and Windows - version 17.0.

This is a minor release and is free for customers who already have a valid 17.0 license. To read about what's new in version 17.0, please refer to the release notes at [www.netop.com](http://www.netop.com).

## Android Host

With the new version of the Android Host, support has been added to the following device manufacturers:

- Panasonic
- ProDVX
- Urovo2, Urovo3, Tinno, Shuttle
- PointMobile
- Crosscall
- Athesi
- Huawei

Fixes included:

- Bluetooth Host name with non-Latin characters is now supported

## Windows Mobile and CE Host

Fixes included:

- It is now possible to create CAB that does not start the Host at the end of the installation
- Host does not start in Motorola devices
- Network problem when switching between wifi and 3g
